*JK*

31 January 1983

Executive Director

NOTE FOR: Chairman, NIC

- While I certainly support, within reason, NIO/NIC entertainment of private sector experts as part of the business, I do need to stay aware of blips on the expense screen.
- Attached summaries show Agency total figures for representation expenses, with further breakdown of the ODCI totals. I would expect NIC's figures, along with OEXA's, to lead the pack-- after the DCI.
- I would like, however, to have an appreciation for your thoughts on the use of receptions as a vehicle.
